# GENUINE BMW SERVICE.

When you buy a BMW, you can look forward to superb service and comprehensive customer care, with a network of dealerships Australia-wide ready to assist you at any time.

The intelligent BMW Condition Based Servicing (CBS) system monitors the individual components of your vehicle's service requirements and notifies you in advance when a service is due. In conjunction with BMW Teleservices, your vehicle then sends all relevant servicing data captured by CBS directly to your preferred BMW dealer.

Using the latest sophisticated BMW diagnostic tools, you can rest assured that your BMW will receive the highest level of attention from specialist BMW-trained technicians using only Genuine BMW Parts.

## BMW SERVICE INCLUSIVE PACKAGES.

Your BMW service experience can also extend to a BMW Service Inclusive package, which covers your scheduled servicing costs for a specified duration or distance (whichever comes first) in a single, once-off advance payment.

# BMW DRIVING EXPERIENCE.

If you've ever wondered why a BMW is the Ultimate Driving Machine, a BMW Driving Experience course is for you.

If you've ever wondered what an Ultimate Driving Machine is capable of, this is the Ultimate test-drive.

BMW Driving Experience was introduced in 1977, the first of its kind initiated by an automotive manufacturer to improve the skills, reactions and awareness of drivers.

Today more than ever, the program offers drivers a positive, exhilarating experience, along with an excellent education and an enthralling opportunity to accelerate their driving abilities. This is all conducted behind the wheel of a dynamic range of Ultimate Driving Machines.

## 1. BMW COMPACT DRIVING EXPERIENCE

A half day taster of the BMW Driving Experience courses.

## 2. BMW ADVANCE 1 DRIVING EXPERIENCE

An exciting introduction into performance driving, the one day course simulates unforeseen oversteer & understeer experiences, ideal driving lines and emergency braking.

## 3. BMW ADVANCE 2 DRIVING EXPERIENCE

After completing our Advance 1 course, drivers can take their skills to another level with this high-performance course designed to test their ability to the fullest.

The aim of the program is to enhance each participant's driving ability by developing attitudes and skills through a structured sequence of courses. Each course takes participants through an increasingly challenging mix of low and high speed driving exercises, that help them respond effectively in emergency situations and become progressively more confident, safe and enthusiastic drivers.

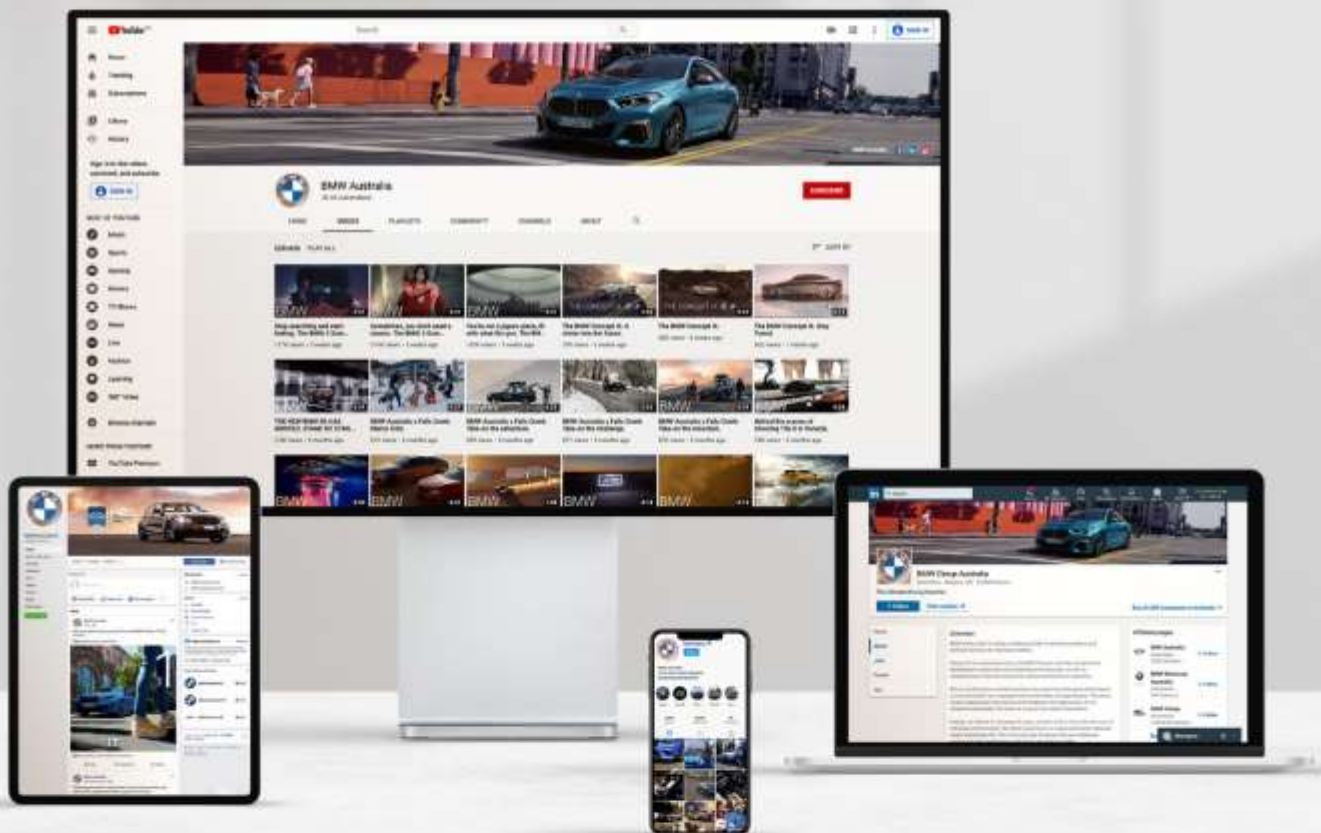

BMW Driving Experience offers a range of courses which are conducted at Australia's leading facilities, including the world renowned Phillip Island Grand Prix Circuit. All BMW Driving Experience courses are supervised by highly-trained instructors.
